## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriate right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

STATE WATER RIGHTS BOARD

STATEMENT OF WATER DIVERSION AND USE

S 2

This statement should be typewritten or legibly written in ink.

A. Name of person diverting water. Cline C. Soule  
 Address Box 56, Rt 1, Montague, Calif 96064

B. Name of body of water at point of diversion all the water of Honey Lake  
 Tributary to and its tributaries that flow into the  
Soule Reservoir

C. Place of diversion N 1/4 SW 1/4 Section 24, Township 45 N, Range 5 W, 100 100  
Shoshone County, or locate it on sketch of section grid on reverse side with regard to section and prominent local landmarks.

D. Name of works

E. Capacity of diversion works  
 Capacity of storage reservoir 132 Here Feet  
 State quantity of water used each month in gallons or acre-feet  

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
<u>Year</u>	<u>Around</u>												

 If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acre of each crop irrigated, average number of persons served, number of stock watered, etc.

Maximum annual water use in recent years all the water in Honey Lake  
 Minimum annual water use in recent years all the water in Honey Lake  
 Type of diversion facility: gravity X, pump  
 Method of measurement: weir, flume, electric power meter, water meter, estimate

F. Purpose of use (what water is being used for) This water runs onto my ranch  
and is used to irrigate land on my ranch

G. General description or location of place (use sketch of section grid on reverse side if you desire)

H. Year of first use as nearly as known Before 1870

I. Name of person filing statement Cline C. Soule  
 Position Rancher Organization  
 Address Box 56, Rt 1, Montague, Calif

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed June 29, 1967 Signature Cline Soule
